

CONVENTIONAL SPEAKERS:

VOLUME FALLS QUICKLY WITH DISTANCE

FLOOR & CEILING REFLECTIONS CAUSE
"GHOST IMAGES" THAT
INTERFERE WITH OUR ABILITY TO
LOCALIZE INSTRUMENTS

THIS IS COMPOUNDED IN LARGE,
ACOUSTICALLY LIVE ROOMS

McIntosh XRT SPEAKERS:

VOLUME FALLS OFF WITH
DISTANCE AT A SLOWER RATE

CYLINDRICAL SOUND PATTERN
REDUCES EARLY REFLECTIONS
AT CRITICAL HIGH FREQUENCIES,
ESPECIALLY IN LIVE ROOMS

VOLUME IS MORE EVEN
THROUGHOUT LENGTH OF ROOM

CREATED BY KEN ZELIN / McINTOSH LABS
